

NAPA VALLEY

THE STORY OF GC NAPA VALLEY GABRIELLE'S VISION

EXPERIENCE THE FULL CIRCLE OF WINE COUNTRY LIVING- From Vineyard Estate...To table...To home... To well being.

Balance the estate growing environment to create biodiversity needed to keep the O'Connell Family Vineyards estate vineyard and gardens naturally healthy... then reap the bounty to create estate products that enrich daily life as well complement the winery's wine.

Plants that attract beneficial insects, birds & bees are harvested to create Gabrielle's GC products (GC from Gabrielle Collection) from the estate olive grove, lavender field, herb garden, citrus & fruit orchard. It is an extension of artful wine country living and a complement to the family's wine portfolio-Gabrielle Collection, Pietro Family Cellars and OCFV Estate Cabernet Sauvignon, Oak Knoll District.

GC botanical products are produced at the Napa Valley Estate, so origin is known. The certified organic Estate has been farmed sustainability since 1990, organically since 2000. For 3 generations, Gabrielle's family has embraced the botanical approach for nurturing health and quality of life.

Gabrielle Leonhard, Founder

GC NAPA VALLEY SPA PRODUCT INFORMATION & INGREDIENT LIST
MAKE EVERYDAY LIFE NATURALLY LUXURIOUS

THE STORY

Gabrielle Leonhard teamed up with product developer, Kim Manley, to create 100% botanical body care products that featured the family Napa Valley estate grown lavender and other organically grown ingredients. For 3 generations, Gabrielle’s family has embraced the botanical approach for nurturing health and quality of life.

GC NAPA VALLEY CULINARY PRODUCT INFORMATION & INGREDIENT LIST

NATURAL AS NATURE INTENDED

THE STORY:

INFUSED SALTS

Gabrielle's mother studied with a chef from the Cordon Bleu in Paris. She learned about infusing ingredients with additional flavor to add excitement to a dish in a simple and authentic way. She would always infuse oils and salts with fresh herbs and citrus, using organic farm to table pure ingredients. Gabrielle carried the tradition forward, producing these delicious products for family & friends, then exclusively for their winery customers and now for select stores. These are finishing salts- accents after a dish has cooked. The Sea Salts come from the prestigious Guérande Salt Ponds in Brittany, France. Completely natural and unrefined, they are harvested using traditional sun-dried Celtic methods, retaining valuable minerals, nutrients and flavor.

EXTRA VIRGIN OLIVE OILS

Gabrielle studied to be a certified Olive oil taster at UC Davis, which began her passion for teaching both chefs & home cooks about the differences and uses of olive oil in the kitchen. After many questions about what oils to have in the pantry, she developed her basic trio of finishing oils: a mildly flavored oil for fish, butter lettuces and any dish where an aggressive oil would overpower other flavor, an pungent aromatic oil for meats, grilled vegetables and bold flavored dishes and citrus & olive macerated oil for vegetables, salads and poultry.

LAVENDER INFUSED HONEY

A holiday gift tradition from the O'Connell Family Napa Vineyard Estate was Gabrielle's lavender infused Honey. Wild honey from local Marshall's Farms blended with the estate lavender in a proprietary process she developed over several years, lead to so many requests that Gabrielle began to offer it to winery customers.

GC NAPA VALLEY HOME PRODUCT INFORMATION & INGREDIENT LIST
HEALTHY, EFFECTIVE AROMATICS FOR YOUR HOME

Our organically grown Napa Valley O’Connell Vineyard Estate lavender is the special ingredient of our luxury and healthy products. Its natural antiseptic and antifungal attributes make cleaning effective while its aroma emits a sense of freshness, health and calm.

THE STORY:

Gabrielle Leonhard’s mother was a food & wine chemist in France. She had a great awareness of the chemical ingredients and the most frequent comment was- under not circumstances will those products come into our home! These were standard cleaning products that we see on most grocery store shelves. She made her own using white vinegar, lemon juice, beeswax and baking soda. Gabrielle embraces a natural approach to a healthy and aromatic home by making products utilizing lavender and eucalyptus waters from estate grown plants plus other organically grown essential oils that are naturally anti-bacterial, such a citrus oils.
